Warrior is a state of mind

strength within ...

Power of life

Capsule collection SS2023

The world strives for harmonious development!

And our brand, as part of this world, strives to be part of the balance and to create harmony.

Our collection is full of strength, beauty and efficiency together! We are inspired by a symbiosis of courage, motivation and tenderness. This combination is so attractive to us in modern men.

Our forms, cut and every idea are borrowed from the heroic past of Eastern history and we feel them to be so relevant especially now! Because humanity more than ever needs courage and love without national borders!

Our colors and decorations are codes of tenderness and longing for the life of Ukrainian cultural heritages!

We dressed our hero with a brave heart and a gentle soul!

This is the man we see, this is the man we fall in love with!
